

Making your Aliyah a tax friendly experience

Moving around the corner can be difficult and stressful, but it is no match for moving to a new country.

Together with our legal and tax expert associates, we can assist the olim in all legal, tax and pension aspects of the transition from their country of origin to Israel.

Without the proper advice, unnecessary taxes in both Israel and the UK could be incurred.

Together, we can assist you in:

- Minimizing your worldwide taxable income
- Capitalizing on the Israeli 10-year tax holiday
- Protecting your pension funds from unnecessary taxes with a Qualifying Recognised Overseas Pension Scheme (QROPS)
- Understanding the benefits of foreign settled trusts etc and the establishment thereof
- Assisting with purchasing and establishing Israeli property and other legal aspects of Aliyah

With professional guidance you can make Aliyah with assurance and start living your new life confidently.
